TO JOIN SPECIAL FARM PARTY WEEK

NODAWAY DELEGATES TO MEET TRAIN AT CHILLICOTHE

IS 15TH ANNUAL EVENT

Membership Solicitors Meeting with Success in Jasper County Similar to that of Nodaway Drive.

The Nodaway county delegates and others attending Farmers Week held at the University of Missouri Jan. 19-23, have been invited to join a special train party from Andrew county. The Nodaway crowd will meet the special and join the rest of the party at Chillicothe Any one from Nodaway who wants to join the party is asked to notify J. R. Evans, president or Roy Lippman, secretary of the Nodaway farm bureau.

Special trains from all over the state will be run to Columbia for this event, which is a state wide gathering of the Missouri Farmers and their families. This is the fifteenth annual meeting. The factulty of the college of agriculture and the student body devote their entire time to making the week profitable and pleasant. Nine special short courses under the direction of the college of agriculture are given daily and there are other rural life conferences which take up for discussion every item of the farmers' problems.

Chester H. Gray, president of the state farm bureau, wired Roy Lippman this morning from Carthage of the splendid success the workers are meeting with in Jasper county. Mr. Gr stated they had secured 400 memberships and donations in two days and had great prospects for the remainder of the week. Mr. Gray and the solicitors who worked last week in this county in a membership drive for the Noda way farm bureau are conducting a similar campaign in Jasper county this week.

Anna M. Greiger Asks Divorce from George Geiger, Support and Restoration of Maiden Name.

A suit for a divorce was filed today by Anna M. Geiger against George Geiger. They were married July 7, 1919, and lived together until January 1, 1920. The grounds for the divorce are alleged to be indignities such as threatening to kill the plaintiff and striking her in the mouth with his fist, breaking her false teeth. The petition states the defendant is worth from $7,000 to $8,000. The plaintiff asks for support and also that her maiden name as Anna Brown be restored.

IMPORTANT PROVISIONS OF DRY LAW EVERY PERSON SHOULD KNOW.

After January 16.

1. Persons may possess their own private stocks of liquors for the use of themselves, their families and invited guests.

2. Carrying of flasks in the pocket or keeping liquor in the office or place of business will be unlawful.

3. Residents of clubs, hotels and boarding houses may have a private stock, to be kept in their room or exclusive locker; cannot be consumed in dining room or club rooms, but only in their rooms.

4. Owners of two private residences may by special permit remove their stock of liquors from one house to the other. There seems no similar provisions for those who must remove from one residence to another.

5. Manufacture of cider which contains one half of one per cent or more of alcohol is barred, except for conversion into vinegar.

6. Hotels, restaurants and saloons with liquor on hand must report kinds and amounts of each by January 27 to Prohibition Director. But no liquor, according to revenue officials, can be legally removed from any saloon, hotel, etc., after the constitutional prohibition act becomes effective on Saturday next. All stocks in hand on that date are to be held until disposition thereof is made under the supervision of the internal revenue collector, acting in conjunction with the prohibition commissioner.

7. The possession of unreported liquor, except private stock, February 1, is made prima facie evidence of law violation, and the liquor may be seized and the place where held declared a common nuisance.

8. The home brewing of beer is barred.

9. Liquor in storage warehouses or elsewhere may be sold upon issuance of a permit and the filing of a bond for nonbeverage purposes.

10. Places where liquor is kept or sold may be abated by injuction and the property sold under lien to pay costs and fines.

11. Search warrants may be issued to search any building for liquor except a private residence.

12. Patients who obtain prescriptions for liquor can get but one pint in ten days. The prescription when once filled must be canceled.

13. The name "beer," "porter" and "ale" are barred on soft drinks manufactured.

14. Persons selling liquor to an intoxicated persons are liable for any depredations he may commit against persons and property.

F. P. MANN WILL SPEAK HERE MONDAY

ADDRESS TO BE GIVEN AT FIRST METHODIST CHURCH

SUBJECT MERCHANDISING

Biggest Retailer in the U. S. Will Give Practical Talk About Business Methods Used.

Final preparation for the Chamber of Commerce and Ad Club banquet at the First Methodist church next Monday evening are being made. Judging from the advance sale of tickets, this will be one of the largest gatherings of merchants and persons interested in retail merchandising that has been held in Maryville for a long time. Several merchants from adjoining towns have signified their intentions of attending the banquet. Grant City phoned over yesterday that there would be a delegation of at least a half a dozen from there that would attend.

George L. Wilfley, president of the Chamber of Commerce, will act as toastmaster. The chief speaker will be Mr. Fred P. Mann, president of North Dakota Retailer's association and country merchant of Devil's Lake, N. D. Maryville is very fortunate securing a man of Mr. Mann's caliber to come to Maryville for a talk, as most of his addresses are before organizations like the Minneapolis, Chamber of Commerce, the university of Kansas, Lawrence, Kan., Hutchison, Kan., Advertising club etc.

Mr. Mann knows retail merchandising from the country merchants view point from A to Z. He has been a country merchant all his life, starting on a borrowed capital of $1600 and last year sold over $500,000 worth of general merchandise in a town of 6,000 people. The story of his unusual business success is being told all over the country in the leading business and trade journals. His talk will be from a practical view point and many methods that he has successfully used, rather than a theoretical talk about about what ought to be and what could be done.

Everyone in Maryville, Nodaway county and vicinity that is interested in retail merchandising should hear Mr Mann. The plates are $1.00 each and anyone interested is invited to come Monday evening January 19th, at 6:30 at the First Methodist church.

556 LOST ON FRENCH STEAMER AFRIQUE SATURDAY NIGHT.

Paris, Jan. 15.—The death list in the loss of the French steampship Afrique in the bay of Biscay is put at 556 today. All hope for the rescue of any further survivors has been abandoned owing to the tremendous storms prevailing over the bay. The Afrique sprang a leak Saturday and went down during the night. There is no confirmation of the report that American soldiers abroad lost their lives.

W. H. ALLEN, pastor

Now Owns Over 500 Acres.

W. W. Alexander this week closed the deal with Hewett McCleave for the old Butler farm, 3 miles south of Hopkins, the price paid being $33,337.50 for the 157½ acres. The addition of this farm, makes "Bill" the owner of 503½ acres, all in a body, but he not yet quite satisfied, having his eye on more dirt that will some day be added to his possesions. He is a good, progressive citizen and in the language of Rip Van Winkle, may he live long and continue to prosper.—Hopkins Journal

A dance will be given at the Modern Woodman Hall Friday night, Jan. 16. Everyone cordially invited. Pearl E. Webb, Manager.

CENSUS ENUMERATION TO BE COMPLETED TONIGHT

Workers in Rural Districts Allowed Longer Time to Finish—No Trouble to Obtain Answers.

The census enumerators in Maryville will be through with taking the enumeration of the city by tonight. These reports will be mailed to Joshua A. Graham, supervisor of the census district, at St. Joseph. Graham has been reminded by the Washington census bureau against giving out any information concerning the enumeration.

The enumerators here reported tha they had no trouble at all.

The enumerators working in the country districts have a longer time to complete their work.

BEARCATS MAKE B. B. DEBUT FRIDAY NIGHT

State Teachers College Team Ready to get the Long End of Score with K. C. Polytechnic.

The Green and White Basket Ball Jerseys will make their first appearance of the season next Friday, Jan. 16 in a game with Polytechnic. Ask any member of the squad if they don't expect to get the long end of the score.

The team has been considerably strengthened by "Bill Richards coming back. Much is expected of "Bill" and we know that other teams will hate to hear of this.

But Bill isn't the only pillar of strength on the team. There is Charley Wells, the stationary guard, who has played with the fast Bear Cats for three years. It will take some pretty fast forwards to get away from Bill and Charley.

There is Puckett; who can play as cool and steady a game as Puckett Who is fast enough to hold Stewart or who can shoot goals like Egley We also have some good men to take their places. They are: King, Adams, Yehle, Nelson, Sawyers, Ramsey and Houchens. The squad knows what kind of basket ball, the school, the town and other colleges expect them to play, and don't expect to disappoint anyone.

The game with Polytechnic will be a game worth seeing. Polytechnic always has a fast team.

The schedule will be of interest:

Polytechnic, Jan. 16 at Maryville; Vandersloot, St. Joseph official.

Tarkio, Jan. 23, at Maryville; Hooper, K. C., official.

Kirksville Feb. 3, at Kirksville.

Central, Feb. 4 at Fayette.

Warrensburg, Feb. 5 at Warrensburg

Polytechnic, Feb. 6 at Kansas City; Menze, K. C. official.

Warrensburg, Feb. 12 at Maryville Larry Todd, K. C. official.

Central Wesleyan, Feb. 26, at Maryville; Hooper, K. C., official.

Kirksville, March 4, at Maryville; Hooper, K. C., official.

Tarkio March 19, at Tarkio; Larry Todd, K. C., official.—Green and White Courier

ASKS POSSESSION OF UNLAWFULLY HELD STRIP OF LAND.

A suit for $250 damages and rent of $10 was filed in the circuit clerk's office today by Anna Marsh against William Watkins for unlawful possession of a strip of land, the petition claiming the defendant took possession of such a strip in 1918.

To Arkansas in Truck.

John Galey left last Saturday for Siloam Springs, Ark., in his Ford truck, taking the Shetland pony, some chickens and other things with him. His wife and little daughter will go by rail, the family having decided to make the Springs their future home.—Hopkins Journal.

GUIDE BATTLES FOR LIFE WITH TRAPPED WILDCAT

Bridgewater, N. H.—Battling for his life with a forty five pound wildcat that nearly tore free of a steel trap in which it was caught was the thrilling experience of William S. Morrill, a seventeen year old guide, well known to sportsmen who make their headquarters here during the hunting and fishing seasons.

Young Morrill, while following a trail near the famous Cascade trout brook, came across the tracks of a big cat.

Morrill set a trap near one of the springs that feed the brook. The location was behind an old stump. The next day Morrill went to visit the scene. The big cat was caught by one hind leg.

With the craftiness for which the "big un's" are noted, the cat crouched down behind the stump as Morrill approached the trap. As the youthful guide bent over the stump to look at the trap the wildcat leaped at him snarling and scratching and dragging the trap with it.

Morrill was carrying a small rifle at the time and he was forced to battle hard several minutes with the infuriated animal, finally breaking its neck with the butt of his rifle which he used as a club. During the battle Morrill was scratched and his clothing badly torn.

NORTH-SOUTH LINE FOR GOOD ROADS

ENTIRE DISTRICT THROUGH NODAWAY COUNTY ORGANIZED

IS PART OF STATE ROAD

R. M. Evans Appointed Chairman, and J. F. Roelofson Secretary of South Half District Organization.

A good roads district through Nodaway county for the purpose of receiving state aid in the building of a hard-surfaced road approved by the state highway association, has now been fully lined up, a meeting at the Davis school house last night for the purpose of organizing the south half of White Cloud township completing the district through to the Andrew county line.

The organization of this half of White Cloud was made with W. D. Hosher, chairman, William Hartman, Fred Davison and Sam Ike, committeemen to complete the work. At a meeting held Tuesday night at the Scudder school house, the south half of Polk township started the formation of a good roads district by appointing a committee composed of Granville Gray, Lawrence Ogden, J. F. Roelofson and Marion Ripley and a committee with R. M. Evans chairman, R. T. Jones, Verne Manley and T. A. Parrish, was appointed to superintend the organization of the north half of White Cloud.

These three sub-organizations appointed one general chairman and secretary last night to oversee the work for the second district which includes the territory south from Maryville to the southern boundary of the county. These officers were R. M. Evans chairman and J. F. Roelofson, secretary.

Talks were made by a number of good roads boosters from the north district including ones by W. A. Burks W. W. Alexander, H. A. Maxwell, A. C. McArthur and H. A. Dalby.

Representative William Job attended the meeting last night and explained the ruling of the state highway association by which aid is given to a state road through Nodaway county.

The north half of the county was organized several weeks ago and their petitions filed with the county court.

It is necessary to create a district through which this road runs, to be approved by the county court so that body can appoint three commissioners to look after same, then the state highway association allows $1200 a mile for grading without additional cost whatsoever from the land owners. The road from the Iowa state line to St. Joe is a part of six thousand miles of road the state commission has and is to lay out to be improved during the next two years, some of the work having been done the past year. The state will also go fifty-fifty should more be needed after the $1200 a mile has been spent.

The COUNTRY GENTLEMAN

And when he has told you, as he will, that it is the biggest dollar's worth of information, instruction and entertainment on the market today, send $1.00 with your name and address to me and I'll put you on the list for a year. That's fair enough, isn't it?

I particularly want to get subscriptions started with next week's issue, because a big new series of articles about the Swine Breeds gets going then. Also, there's a splendid series about Cotton, and another, that will interest everybody, about Big Country Churches. Then there are some bully big tractor numbers coming along in February—too good to miss. And before long there will be some bank articles by Herbert Quick, and a ripsnorting new mystery serial. All these in addition to the regular weekly crop and livestock features. Never was such a big dollar's worth of helpful reading matter as you'll get if you subscribe NOW!

SIRUP FROM GRAPE JUICE

Plan Proposed by Experts of the University of California Would Seem to Solve Problem.

To meet the ban on the manufacture of wine in the great grape-raising areas the agricultural college of the University of California has developed a practical method of converting grape juice into excellent sirup. It is the belief, says the Scientific American, that converting grapes into sirup instead of wine will double the value of the fruit. The estimated value of the crop of 250,000 tons of wine grapes, grown annually, is four million dollars; if the crop is made into sirup, it should have a value of eight million dollars.

While the experts at the agricultural college have been working on the problem, an independent chemist and grape expert has succeeded in producing a sirup from grapes that meets all the requirements of a commercial product. According to figures that he submits, his method will produce sirup at a cost that is slightly lower than that of the other method.

One of the interesting sides of the question is the plan recommended by the university that all grape growers, wineries and sugar factories co-operate next year in the interests of all those industries. It proposes that the wineries purchase the grapes of the vintage of 1919, and extract and store the estimated fifty million gallons of juice, that the larger sugar factories receive the juice and concentrate it, and that they ship the sirup to the canneries for use in 1920.

The university has discovered a simple and inexpensive process of treating the juice that will prevent fermentation for a year, if necessary. The chemists say that the sirup can be used in place of sugar in preserving some of the fruits, and can be mixed with sugar in preserving others.

HAD THE PORTER GUESSING

Colored Man Quite Unable to Understand Clergyman's Objection to Presence of Empty Flask.

Rev. William H. Book, pastor of the Tabernacle Christian church at Columbus, recently held a revival meeting at Huntington, W. Va. He lived at a Huntington hotel and one day, when hanging a coat in the closet of his room he found an empty whisky bottle on the closet floor. Apparently the quart bottle had been there for some time, but it had not been discovered and the minister did not wish it found immediately after he vacated the room. So he called a porter and asked that the bottle be removed.

"Somebody might find the bottle in there just after I left town," Mr. Book explained, "and it would reflect on me. I don't want anybody to think I placed that bottle in there or that I had anything to do with it."

The porter nodded his head, picked up the bottle and studied the label on it. Apparently he was sorely puzzled to know why the minister would not claim ownership or at least relationship with the empty container. At length his bewilderment was expressed in speech.

"Why, boss," he exclaimed, "that's the best brand made."—Indianapolis News.

Counteracting Submarine.

The warship of the present day is a compromise between what we deem best and what we deem essential. The torpedo-proof bottom has become essential; therefore we must give up guns or armor or speed or something else in order to get it. On the other hand it is probable that battleships and battle cruisers will not hereafter be supplied with torpedoes. Since actions are now fought at enormous ranges, and since vessels can be sunk by gunfire alone, torpedoes on big-gun ships are now useless. Omitting the torpedo tube will save little weight, but it will leave space for more ammunition. A writer suggests that high-speed rams with bows of proper shape and requisite strength to sink underwater craft will again come into use.

Upward Movement in England.

The formation, recently announced, of the Village Clubs association marks a memorable departure in English village life. It arose out of a discussion of the Agricultural club. The main idea of the association is to help village people to conduct, by themselves and for themselves, centers of amusement and recreation. They are to supply themselves with what they want, rather than with what other people think they ought to have; the association helping them, but not dictating in any way. This may well be the seed of a very big movement, and is a noteworthy sign of the times.

Couldn't Blame Him for That.

The attorney for the defense was trying his best to discredit the testimony of a colored witness in a recent Marion county juvenile court case.

"Didn't I defend you in a case in this court last May, Sam?" he demanded.

Before the witness had a chance to reply to the question the attorney for the state said, "We grant it, but you don't hold that against him, do you?"

ROUND-UP OF 'REDS' WILL CONTINUE

VIGOROUS CAMPAIGN MEETING WITH COUNTRY APPROVAL

ONE MILLION FOR WORK

Surveillance of Department of Justice Extended from Coast to Coast Awaiting Opportune Time.

Washington, D. C.—The vigorous campaign of the administration against radicalism is meeting with country wide approval, and if congress grants the appropriation just requested by the department of labor the round up of "reds" will continue with increased vigor and scope.

Following raids by the department of justice which resulted in the arrest of more than 5000 persons suspected of radical tendencies, the department of labor submitted to congress, when it reassembled this week, estimates for an appropriation of $1,000,000 for the enforcement of laws against alien radicals and $150,000 for expenses of their deportation.

The department of labor also asks a deficiency appropriation of $300,000 to continue its work of regulating immigration.

The commendable activities of the department of justice in arresting suspected alien radicals and in the seizure of tons of objectionable literature and propaganda matter, together with the estimates submitted by the department of labor, reveal the intent of the administration to pursue relentlessly the campaign against radicalism. Aliens who preach overthrow of government and violence, or who indulge in inflammatory utterances against American laws and institutions, will come immediately under the surveillance of agents of the government and will be arrested whenever their activities reach a point where they are regarded as inimical to the public welfare.

Within the past week agents of the department of justice and the immigration authorities have been making arrests in scores of American communities. It is significant that these "raids" were so well conducted that they came as a surprise to the radicals as well as the country at large. A chorus of commendation in all sections of the United States followed the first announcement of the roundup.

The efficiency and systematic planning of the department of justice, which reached out its hand at practically the same hour throughout the country was shown by the Chicago incident. A state official in that city criticized the Attorney General of the United States for not assisting the state authorities in a small round up of radicals in Chicago. Under this criticism the department of justice remained silent for a few hours, knowing that its plans were already laid for simultaneous raids in Chicago and elsewhere This program, of course, which had been making for days, could not be disclosed to the public. At the appointed hour the agents of the Attorney General began making wholesale arrests and seizing radical literature in practically every large city, including Chicago.

When the federal campaign against radicalism got under way, critics of the department of justice learned that for weeks its secret service agents had been collecting data upon which alien "reds" might be arrested and deported.

The wholesale arrests of the department of justice showed that its surveillance had extended from coast to coast and that its agents were merely awaiting the opportune time for beginning the systematic round up of suspected radicals. This disclosure silenced unjust and ill advised criticism, whether in Chicago or elsewhere, and public commendation of the stern measures of the department supplanted it immediately.

KANE DECLARES HE IS POWERLESS TO CHECK GOUGERS

Handicapped by Cooke's Refusal to Reorganize Wartime Fair-Price Board, He Says

ATTORNEY'S DUTY TO STOP PROFITEERING, SAYS HEINZ

Prosecutor Has No Time to Answer Questions Concerning Action in Other Cities

With the housewives of this city clamoring for direct, vigorous action against the food gougers, whom they hold responsible for the undernourishment of their children, Francis I. Kane, United States district attorney, declared yesterday he was powerless to check profiteering.

Mr. Kane complained he was seriously handicapped by the refusal of Jay Cooke, formerly food administrator for Philadelphia, to reorganize the fair-price board. That board, by the force of publicity, ought to bring the profiteers, he said.

But Howard Heinz, food administrator for Pennsylvania, who conferred with Mr. Kane on that point, in an interview with the PUBLIC LEDGER over the long-distance wire last night, said he is still hopeful that it will be in his power to induce the food operators to reorganize the fair-price boards, as requested by the United States attorney general. He expressed, however, as his opinion, that the fair-price boards will be seriously handicapped in their fight upon the high cost of living in that it rests with the municipalities to assume regulatory control of the entire system of food distribution.

Mr. Heinz's statement followed the refusal of Jay Cooke, former food administrator for Philadelphia, to return to this city from Washington and reorganize the fair-price board here. Mr. Heinz expressed the hope, however, that Mr. Cooke may yet be induced to assume that burden.

Mr. Cooke, in a talk over the long-distance wire last night said he had decided, in his determination not to return to his duties as food administrator.

War Is Over, Says Cooke

"The war is over," said Mr. Cooke. "I don't see why I should come back to the job of food administrator. I was engineered for that office during the war. The present situation may be an outgrowth of the war, but I can't see how I could get mixed up in it. If the President would return and ask me to do the work that would be a different matter."

INFLATED CURRENCY [illegible] FOR H. C. L.

Increase Value of Dollar by [illegible] Amount of Gold, Yale Professor Says

Who said H.C.L.?

LAST season's suit still holds together and we can half-sole our shoes. And you can still buy a big generous tin of the jolliest old pipe tobacco that ever came down the pike, without mortgaging the old homestead. Hooray!

Good old Kentucky is still growing Velvet's honest fragrant leaf. We're still ageing Velvet in the wood. Velvet's just as smooth and mellow and mild as it ever was. The quality's there and the quantity's there just the same.

Take the "cost" out of the "high cost of living" and what do you get? Why, "high living" of course. Well, sir, that's what Velvet does.

It's like Velvet Joe says:

"Anybody can tell you how much Velvet *costs*. But only yo' old pipe can tell you how much Velvet is *worth*."

There's goodness knows how many pipe loads in every tin of Velvet. Or if you want the mildest cigarette ever—there's 45 big ones in every tin.

Mrs. Robert Wells was hostess at her home on South Main street yesterday afternoon to the I. X. L. Embroidery club. An important part of the afternoons work was the election of officers. Mrs. Anna Stauble was elected president; Mrs. Fred Curfman, vice president and Mrs. M. L. Hopper, secretary and treasurer. Dues for the coming year were paid and the financial affairs of the club were settled. The club was organized August 13, 1911 making the eighth year of active work it has carried on. A vote of thanks was given Mrs. Eugene Rathburn for delightful Christmas party with which she entertained the members, their husbands and friends. A box party was planned to be given at the home of Mrs. Fred Curfman on the night of January twenty third. A six o'clock dinner was served last night. Mrs. Wells assisted by her daughter, Mrs. Roy Jackson. The meeting of the club will be held at the home of Mrs. Guy Mutz on February 4.

M. U. MAN ON BASKETBALL RULES COMMITTEE

Columbia, Mo.—Dr. W. E. Meanwell, director of athletics at the university of Missouri and coach of the Missouri basketball team, has been made a member of the national committee on rules for basketball, which is continually growing in popularity as an intercollegiate sport. Dr Meanwell's appointment was made at a meeting of the intercollegiate athletic association, held in New York recently. Others serving on the committee are: Oswald Tower of Phillips Andover, Dr. J. L. Cooks of Minnesota, Ralph Morgan of Pennsylvania, L. W. St. John of Ohio State and J. E. Raycroft of Princeton.

Director Meanwell will write the history of the Missouri Valley in 1919 for Spaulding's guide and will attempt to have this conference receive more attention than it previously has had.

BRANCH OFFICE OF MOTOR DEPARTMENT AT ST. JOE

Automobile Owners and Dealers, Motorcycle Owners and Chauffeurs May Register There and Get Number Plate.

A branch office of the state motor vehicle registration department is located at St. Joseph in room 8 at the city hall. The following letter is from Charles C. Hucke, deputy in charge, about this branch office:

"We wish to call your attention to the great convenience of having at the city hall in St. Joseph a branch office of the state motor vehicle registration department where automobile owners and dealers, motorcycle owners and chauffeurs may register and obtain their state plate number for 1920. This branch was established in order to save motor vehicle owners the trouble of filling out and mailing application blanks with cashier's checks, draft or money orders to Jefferson City.

Statistics show that 338 out of 400 applications mailed to Jefferson City have to be returned for correction. If the applicant comes to the city hall, an officer will assist him in filling out the application, thus avoiding errors and the trouble of obtaining cashier's check, drafts or money order. The fees can be paid the local branch office and the number plate will be delivered at the same time. Those in charge of the branch office will be glad to assist applicants in every way. A complete list of all motor vehicles registered in the state is kept at the branch office for public inspection.

"Applications at the branch office must be made in person. They cannot be made here by mail, but one person may come in person and fill out application for any number of other owners, and can obtain the plate number for them. Registration for all parts of northwest Missouri may be issued here if the owner comes or sends some other person to the office for the number plates. When you come or send some one to the branch office don't forget the motor number and plate number must be furnished. 1920 number plates will be ready for distribution January 5th.

"All mail orders must be sent as heretofore, to John L. Sullivan, Secretary of State, Jefferson City."

GOOD ADVICE FOR YOUR EYES.

If you are sick and know what ails you, go to any drug store, the druggist will advise you the kind of medicine to buy. It may do you good. His services are free. If your eyesight fails and you know what is the matter with your eyes you can go to a store where they sell glasses. The dealer will test your eyes and sell you glasses. They may help you. His services are free. But if you are sick and dont know what is the matter with you, call on an efficient doctor practicing medicine. He will cure you. If your eyesight fails, you don't know why they have failed, you have no way of knowing unless you have been a student of an optical college. Call on an efficient doctor of optics. THE WONDER HOUSE.

There is no house like the little house
Love builds in the morning dreams—
The house that sits in a grove of pines
By the shore of the singing streams.
The wonder house of the world is love's,
For they built it out of their hearts,
And it rises fairer than temple or tower
That are built of the worn world's arts

There is no furniture that it needs,
For love has furnished it, too,
And its walls are decked with the living glow
Of the skies in their softest blue.
And the floors are laid of the sandalwood
That no hand smoothed or planes—
For love makes the roughness utterly good,
And cleanses life of its stains.

The wonder house is the house that sits
On a hill or in some hollow,
With the spring to stop by its little door
And the summer and autumn to follow.
And even the winter to linger there,
So sure that there'll be warm glow
On that hearth of love, with the stars above,
And the young strong hearts that know.

Peculiar Newspaper.

One of the queerest newspapers in the world is the Kamloops Wawa, a paper printed entirely in shorthand, for the British Columbia Indians in the Frazer river district.

The idea of the paper belongs to Mgr. Le Jeune, a French-Canadian priest, who works among the Indians. He had difficulty in noting down the sounds of the words spoken by the Indians and bethought himself of shorthand signs and found them suitable to the task. The Indians became interested in this "talk language" and studied it until they mastered it. Then the priest wrote various parts of the Gospels in this language. Later the Indians showed a desire to know the things of the day, and the priest turned out a daily bulletin on a mimeograph. This paper sold out so quickly each week that he found it worth while to have type cast and the weekly printed on the presses of a journal in the nearest town, Kamloops. Today the paper has a circulation of 3,500 copies every week, and carries a lot of advertising matter.

Wonderful Chronometer.

A chronometer which showed a variation from day to day of only six one-hundredths of a second won the world's record at the Geneva (Switzerland) conservatory's latest annual contest. The method of scoring is by points, 300 being allowed for daily precision, 300 for immunity to temperature changes, 300 for resistance to the effects of changing position, and 100 for quick return to precision after such changes. In the contest 111 watch chronometers were entered, and five ship's chronometers.—Popular Mechanics Magazine.

Long Concrete Bridge.

One of the longest reinforced-concrete railway bridges in the world has just been completed in Sweden, crossing the Ore river. The arched span of the new bridge measures 297 feet 6 inches, and it is built to carry trains running at speeds above 60 miles an hour, with axle loads of 20 tons. The construction cost nearly $560,000, the original estimate, made before the war, being $227,800.—Popular Mechanics Magazine.

WHERE EAST AND WEST MEET

Young Chinese Girls in San Francisco Learning Language and Customs of the Country.

Young Chinese girls in San Francisco's Chinatown offer the most striking examples of the meeting of the East and West. Physically and mentally they show the two opposite influences under which they live, says the Christian Science Monitor. Their conversation is a curious mixture of English and Chinese. In their homes they speak Chinese, but by the time they reach fifteen or sixteen they know English better than their mother tongue.

Among the families who can afford to do so, the girls are sent to some teacher of Chinese to be taught to read and write their mother tongue, outside of school hours. For the fathers and the mothers have a wistful hope of returning some day to China, and it would never do if the children were instructed only in a foreign tongue.

The life of a Chinese girl is not altogether simple. In the poorer and more ignorant families the parents are often filled with superstition and prejudice against the education of women. In spite of the many obstacles, however, they usually manage to get in touch with some of the advantages offered in their quarters, being aided by social settlement workers of Chinatown.

REMINISCENT OF OTHER DAYS

Century-Old Building in Providence, Rhode Island, Is a Survival of Napoleonic Era.

A recent incident in Providence, Rhode Island, calls attention to an old landmark reminiscent of Napoleon and his construction of the Madeleine in Paris. Napoleon's building set a little fashion in America, and several structures more or less like it were built in different cities. The Arcade building, in Providence, is the only one of them left. Erected about 1820, it became an Ionic temple, that was also a center of retail trade, and its pillars remain today the largest monoliths in the country, except those which have been raised for the growing Cathedral of St. John the Divine, in New York. The record tells how they were cut by hand, in the town of Johnston, and dragged to Providence on sleds, nearly a hundred years ago. It tells also that the dedication of the building was a grand public affair, and that the temple was long held to be one of the architectural wonders of the United States. It is not of such commercial importance as it used to be, but one may be glad that the city has not lost such a reminder of the Napoleonic era.

Hops.

Hops are grown in a number of states. In the central and northern part of the state of New York many farmers make a specialty of their growth. The yield is from 700 to 800 pounds the acre in that state, but on the Pacific coast, where most of the hops consumed here are grown, the yield is between 1,000 and 2,000 pounds per acre. Oregon produces more hops than any other state in the Union. By far the greater part of the hops raised have been consumed in the breweries of the country, but they are also used in pharmaceutical preparations. The present one-half of 1 per cent beer contains hops, but not in such large quantities as in beers of the larger alcoholic content. And then it is not likely that the kind of beer permitted under the prohibitory law will appeal largely to the drinkers of old-time beer. It seems certain that the demand for hops will fall off greatly.

Coal Gas as Automobile Fuel.

In the course of the world war many motor vehicles were operated in England with coal gas because of the scarcity of gasoline. The gas was contained in collapsible bags made of rubberized balloon fabric. At present, however, compressed gas in steel cylinders is being tried. It is stated that the gas is forced in to pressures as high as 2,250 pounds per square inch. The cost of compression is stated to vary between 40 and 75 cents per 1,000 cubic feet of free gas, and the cost as fuel in the engine is equivalent to a cost of 12 cents per gallon on the liquid fuel replaced.—Scientific American.

Detested Cowardice.

Cecil is not particularly pugnacious, but he detested cowardice in any one, and, noting George's aversion to games in which he might get hurt, he determined to initiate him. The teacher caught him holding George down, and he was asked to explain.

"Well," he answered, "I dared George to fight, and he ran; so I'm holding him till I can argue some courage into him; then we are going to have a scrap."

What He Got for His Dollar.

"Ever answer any of those coal saving advertisements?"

"Answered 'em all, I guess. But I only got one recipe that had any merit."

"What was that?"

"It read: 'Coal may be made to last longer by keeping it away from the stoves and furnace.'"—Boston Transcript.

Sure Thing.

"I'll bet," said Mr. Growcher, "the government would have all the money it needs in a hundred years if the conscience fund could get hold of all that's coming to it."

PRELIMINARY HEARING WAIVED BY TARWATER

Alleged Slayer is Calm and Self Possessed—Permits Charge to go Direct to Court.

Gallatin, Mo.—The preliminary hearing of Hugh Y. Tarwater, city clerk, charged with murder in the first degree in killing Wes L. Robertson, senior editor of the Gallatin Democrat, two days before Christmas, was waived by Tarwater's attorneys when the case was called before Justice J. T. Cope this afternoon.

Attorneys for the prosecution attempted to put witnesses on the stand to testify, but were ruled down. Tarwater was bound over to the circuit court, and no attempt was made to secure bail. Tarwater was taken back to the Daviess county jail. It is believed he will be kept here, as mob violence is not feared.

Tarwater appeared calm and self-possed when brought to the courtroom this afternoon. The hearing was in the circuit courtroom, and the entire court house was crowded.

Attorneys for the defense, Boyd Dudley, J. C. Leopard and D. H. Leopard, all of Gallatin, had a conference this morning in the law offices of J. C. Leopard & Son. The probable line of defense is believed to have been agreed upon, but no statement has been made.

It is believed that the defense will ask for a change of venue from Daviess county at the trial to follow. It was not expected that the hearing would disclose the line of defense which will be maintained by Tarwater's attorneys. Postmaster Robert J. Ball, partner in business with Robertson, who was witness to the shooting is the principal witness for the prosecution. Ball is said to have entered The Democrat office just as Tarwater fired at Robertson, and to have attempted to prevent the shooting, with the result that Tarwater turned the gun upon him.

Tarwater was brought to Gallatin yesterday for the first time since Sheriff J. A. Blair took him to the St. Joseph jail a few hours following the shooting. He probably will not be returned to St. Joseph as there is no fear of mob violence here.

Land is a safe investment and one that will be largely multiplied by the advance in prices, which must come.

Present prices range from $17.50 to $40.00 per acre, depending upon quality, location and improvements, if any.

Now for some practical illustrations: That you may have before you the exact working as applied to our lands, we give an example. This is of a choice quarter section of land. Our price is $25.00 per acre or $4.000. You pay down $1,000, and in six months make a payment of $105, which pays up the accrued interest and begins to "kill" the principal.

Less than 58 cents per day is all it takes. Every day, week day and Sunday, summer or winter, the milk truck of the Cheyenne Creamery passes your door, and, at present prices, less than 2 gallons of milk per day from old "Bossy" or 9 fresh eggs, will more than keep up the installments and pay for your farm.

We now have excursions every two weeks. See us and we will make arrangements for you, as we are going within a few days.

GIRLS! A MASS OF WAVY, GLEAMY BEAUTIFUL HAIR

Let "Danderine" save and glorify your hair

In a few moments you can transform your plan, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the Danderine and draw this through you hair taking one small strand at a time. Instantly, yes, immediately, you have daubled the beauty of your hair. It will be a mass, so soft, lustrous, fluffy and so easy to do up. All dust, dirt and excessive oil is removed.

Let Danderine put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair, and help your hair to grow long, thick strong and beautiful.

A MERCILESS JUDGE

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Maryville resident has withstood the sternest of all tests.

Mrs. R. Snyder, 1008 E. Third St., says: I had pains across my kidneys for some time and couldn't rest well at night. Doan's Kidney Pills gave me great relief. The pain from my kidneys left, the feeling of languor disappeared and my health improved."

OVER THREE YEARS LATER Mrs. Snyder said: "It hasn't been necessary for me to use a kidney medicine for several years now, so I know Doan's Kidney Pills have given me permanent benefit. I gladly endorse this medicine, for I think highly of it."

Price 60c at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills—the same that Mrs. Snyder had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

418 INDIVIDUALS ENROLLED AT S.T.C.

FACULTY TO DIRECT EXTENSION WORK AT ST. JOSEPH.

COMMENCED LAST WEEK

56 Students now Taking Course. 47 Non Resident Students Taking Work by Correspondence.

Miss Beulah Brunner of the State Teachers college faculty went to St. Joseph today to meet the first of the extension classes formed there last Saturday by President Richardson. Miss Brunner will have a class in Principles of Teaching.

Other members of the faculty will meet other extension classes in St. Joseph tomorrow as follows: Dean G. H. Colbert, a class in teaching of mathematics; Mr. C. E. Wells, a class in beginning Spanish and class in second term Spanish; Miss Mildred Miller, a class in Juvenile literature; Miss Olive DeLuce, a class in art, history and appreciation. The present individual enrollment in these classes is 42, many taking two classes so that the total class enrollment is 56.

The resident enrollment at the college so far this year is 232. The enrollment in the demonstration school is 97. In addition to these, 47 non-resident students are taking work by correspondence, which make a total of 418 individuals enrolled in the various departments of the college this year. It is quite probable that the extension classes in St. Joseph will increase in number.

MAKING SURVEY FOR THE BARNARD-BOLCKOW DITCH

Surveyor Started Work Monday on a Drainage Ditch Project Between Barnard and Bolckow.

J. E. Schnitzius of Savannah, surveyor, began work Monday on Barnard-Bolckow Draining Company and is making a contour map of the district, says this week's Barnard Bulletin. He estimates that he will be about six weeks on the survey. The survey started at the bend in the river at the north end of the picnic grounds and goes south between Dr. Larrabee's house and the Merrel home, it being thought that the ditch would pass under the small bridge at the fill.

After the survey has been made and the contour map made, Mr. Schnitzius, in conjunction with the board of directors, will locate the ditch definitely, and will then make a profile map of the course of the ditch with estimates as to amount of earth to be removed, and an estimate of the cost of the proposition.

BEARCATS EXPECT EASY WIN TONIGHT

IN GOOD SHAPE FOR CONTEST WITH K. C. POLYTECHNIC

'PEP' ASSEMBLY THIS P.M.

Kansas City Team Scores Victory Over Tarkio College Last Night Score 21-19.

A "pep" assembly, to encourage the backbone giving qualities of the Bear Cats of the State Teachers College in preparation for the game tonight with the Kansas City Polytechnic team on the college court, was held at 2:20 this afternoon in the college library.

The team is in good shape for tonight's game and has every intention of scoring a victory. The line up is Wells and Richards, guards; King, center; Puckett, Egley and Stewart, forwards.

The assembly held plenty of "pep" this afternoon. Speeches for the faculty were made by Prof. E. W. Glenn and Miss Blanche Dow, and for the student body by Miss Mary Coler and Lee Meek. Dr. Karl Malotte also made a good talk to the team and assembled crowd of students, and there was some lively music.

The following is about their game at Tarkio last night:

In a slow but hard fought game the Junior College five of Kansas City defeated Tarkio, 21 to 19. The teams fought on even terms practically all of the route and it wasn't until near the close of play that the Junior College was able to nose out a victory.

Jimmy Storms, with four counters from the field, started for the Kansas City quintet, while Patterson's work at forward for Tarkio was a brilliant spot in that team's offense.

He was born in Pennsylvania in 1854 and was married to Miss Anna Cassady of that state in 1875. Shortly after their marriage they moved to Missouri and resided on a farm of Maryville until five years ago when they moved to Kansas City. They were among the early settlers at Conception Mo. He is survived by his wife and one sister, Mrs. Ruth McGuire of Conception, Mo.

Funeral services were held at the Cathedral parish Kansas City, Mo. Thursday. Interment was at Mount St. Marys cemetery.

ARMY'S HISTORY OF WAR ORDERED SPEEDED.

Washington.—General March has ordered the historical branch of the war plans division of the general staff to concentrate its efforts on the history of the world war with a view to its early completion and issuance to the army. The orders specify that research and study relating to other operations be regarded as "of secondary importance" and should be performed by other agencies of the department.

The status of the historical branch of the general staff in the matter of records will not be determined until the enactment of pending legislation looking to the reorganization of the military establishment.

LEADERS MEET IN PARIS

United States not Invited to Participate in Conference—Military Chief in Conference.

Paris, Jan. 16.—The supreme council peace conference is meeting this afternoon with Hugh Wallace, American ambassador, present to consider the Russian situation. Lloyd George, Clemenceau and Nitti are also present. It is reported official statement of utmost importance will be issued, probably this evening.

Washington, Jan. 16.—Secretary of State Lansing stated today he had not been asked to attend the meeting of the supreme council at Paris to consider the Russian situation nor had the United States been invite dto participate in such a conference. Ambassador Wallace has been given no instructions to attend such a conference, Lansing said.

London, Jan. 16.—Before peace with Germany is a week old, the British public has been brought up sharply against the possibility of another war.

Many prominent officials have been summoned to Paris for a consultation with Lloyd George.

This summons is inevitably connected in the public mind with the semi-official statement today calling attention to the threatening situation in the middle East as a result of Bolshevik military successes which have given the soviets virtual mastery of the whole of European Russia, for, although it is not yet confirmed that they have entered Odessa, it is believed it cannot be long before they are in full possession of the coast regions there.

By their victories, the Bolsheviki have obtained command of enormous supplies of food, raw materials, coal and rolling stock and other means of transport of which they formerly were in need.

Speculation is active in the European capitals as to the next move of the Bolsheviki. It is regarded as certain, that, flushed with success, they will not be content with their present conquests, but wil lseek to extend bolshevism either eastward or westward.

COLLEGE PLUMBERS GET 8 BUCKS A DAY, PROFS. $4

Chicago.—Plumbers, hired to fix the plumbing at the Northwestern university are paid $8 a day, but professors—teachers or synthetic projective geometry, archaeology or metaphysics—receive not more than $4 a day according to a statement by William J. Farquharson, financial director of the university.

Mr. Farquharson made public the fact that the university is "broke."

"The trustees will have to decide how many instructors they can pay a living wage," said Mr. Farquharson, "and reduce the facilities of the university accordingly."

GOOD ADVICE FOR YOUR EYES.

If you are sick and know what ails you, go to any drug store, the druggist will advise you the kind of medicine to buy. It may do you good. His services are free. If your eyesight fails and you know what is the matter with your eyes you can go to a store where they sell glasses. The dealer will test your eyes and sell you glasses They may help you. His services are free. But if you are sick and dont know what is the matter with you, call on an efficient doctor practicing medicine. He will cure you. If your eyesight fails, you don't know why they have failed, you have no way of knowing unless you have been a student of an optical college. Call on an efficient doctor of optics. He will carefully examine yohr eyes and fit them with glasses which will restore your vision and cure headache, if it is caused by eyestrain John LeGrand Baker, exclusive, efficient doctor of optics, of Maryville, Mo. —ADV.

DOES IT CATCH YOU —Right in the Back?

It may be that you are mysteriously attacked by pain in back, dumbago, or limbs, "neuralgic" pains—shooting anywhere. Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack ambition to do things. The latest and most effective means of overcoming such trouble, is to drink plenty of water between meals, and take a single Anuric (anti-uric-acid) Tablet before each meal for a while, or until recovered.

Carl Junction, Mo.:—"I have taken Dr. Pierce's Anuric Tablets and I am pleased to say that this medicine has cured me of kidney trouble and I am glad to recommend Anuric for kidney and bladder troubles."—H. L. LAWRENCE, Box 53.

Simply ask your favorite druggist for Dr. Pierce's Anuric Tablets (double strength) for the kidneys or send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

DON'T WHIP!

Stop Lashing Your Bowels with Harsh Cathartics but take "Cascarets."

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilions attacks, stomach disorders, and sick headache. But do not whip the bowels into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colo nand bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil or Purgatives.

Twenty-five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little too.—Adv.

BEQUEATHED $10,000 TO BOY CHUM WHOSE LIFE HE SAVED.

Detroit Mich.—Milton W. Coykendall, an Iron moulder of this city, has been informed by a letter from New York attorneys that a former boyhood chum whom he had rescued from drowning more than twenty years ago had died and had bequeathed him $10,000. Coykenhall, who is thirty years old and married, passed his early youth at Capac, Mich., as did his chum Jack Dunn. The two at that time were inseparable companions, went to school together, played, fought and went swimming together. It was during one of the swimming trips that Dunn nearly lost his life. Caught in a treacherous undercurrent he was fast losing his strength when Coykenhall, a strong swimmer, saved him.

Shortly after this the boys left the home town, going different ways. Dunn wandered to New York, where he became a successful broker, Coykenall, during a trip to New York several years ago, met his boyhood friend, who declared he would never forget the old days, especially the day his life was saved.

The letter from the New York attorneys proved that Dunn had not forgotten. Coykenhall left for New York to claim the $10,000.

Pickering Christian Church

The new Y. P. S. C. E. of the Pickering Christian church had their initial meeting Wednesday evening in order to combine their meetings with the mid week prayer services. The meeting was well attended with a large number taking part in the services. The Bible school attendance is increasing and the members are asked to be on hand next Sunday mornigg at 10 o'clock and there will be no intermission between the Bible school and church services. The morning sermon subject will be "Reconstruction." There will be no evening services while the Methodist church revival continues. W. A. Chapman, Pastor.

BEST TEACHERS IN STATE ARE LEAVING MISSOURI

Low Salaries Cause many to Seek Other Fields.—One-fourth Now Gone to Other States.

Charles H. Williams, director of the university extension division, has returned from Warrensburg and St. Louis where he attended executive and salary committee meeting of the Missouri State Teachers' association. The other two members of the committee are Prof. A. H. Cooper of Maryville and Prof. C. H. Phillips of Warrensburg. At these sessions it was stated that one fourth of the best teachers of Missouri had left the state to teach in Iowa, Kansas, Oklahoma, and other states where the salaries were better than here. As a result, many more poorly trained teachers have taken their places. Many schools were unable to open until special certificates were issued to teachers who had not expected to teach. The committees decided, therefore, that, to better the conditions, the school should become better organized.

A new constitution for the association was proposed and adopted. This constitution provides for the organization of community associations through out the state, all to be directly connected with the state association. The executive committees of the state and district have decided to organize all teachers on a professional basis, not intending to advocate extreme measures but simply to put facts concerning school situations before the state and ask it to take measures to raise salaries and thus obtain more efficient service. About thirty counties have already organized in accordance with the new plan and a large number of others have set dates to organize. Acting as a unit, the 20,000 teachers of the state hope for much better results than if they worked individually.

The state has also completed plans for the establishment of a school journal for Missouri. This periodical will be issued beginning in June of this year, and will probably be edited at Columbia in connection with the office of the secretary of the state association. The editor named by the committee has not yet accepted.—University Missourian.

WALKED TO ST. JOSEPH 30 YEARS AGO—TOOK 3 DAYS

Hopkins Man, Then a Boy Drove Five Head of Cows from Hopkins to the City Worth While.

Now that folks whiz from Hopkins to St. Joe in automobiles in from two and a half to four hours, the distance does not seem far, but it seemed quite different some thirty years ago when Billy Pettyjohn, then a boy, drove five cows from here to St. Joe, using "shank's ponies" as means of conveyance, or to be prefectly plain, made the entire trip on foot the time required three days, and they were long, dusty, hot and weary ones, the month being August, says this week's Hopkins Journal. At that time Hallick Fleming conducted a dairy in St. Joe and the cows were being delivered to him. The first night the boy was out, he stopped with a farmer south of Maryville who fed the cows and the boy, refusing to accept any pay the next morning, but the following night night, a farmer residing this side of Savannah was the host and his charge made up for what the other fellow did not collect, his bill being a plenty, showing that in those days as well as now, there were people generously inclined as well as those belonging to the poker class. Wages then were not what they are now. Bill receiving $3.75 for his three days work, his expenses of course being paid as well as his fare home on the train. In speaking of this experience Bill is of the opinion that he is still able to average three miles an hour on foot even if it does take a fast walking horse to average four miles. He got his early training as a pedestrian when a lad in the Blue Ridge mountains of South Carolina, where moonshiners were plentiful; in fact, "one lived with Bill," and Bill became as rugged as a cub bear climbing up and over and throughout the big hills, carrying jugs and watching for and dodging government men. In those days the mountaineers thought it just as honorable to manufacture and the sell the juice of the corn and rye as men now do to grow and sell the cereals in their natural state, but later, when the error of their way was pointed out, most of them left their mountain homes, going hither and thither to seek new avenues of supporting themselves and families, several finding their way to the Hopkins vicinity and better citizens could not be asked for, all being as staright as strings and law abiding to the letter.

All the furnishings and equipment will be of the best type. E. O. Boone, teacher at the Douglass school, has been aiding in the work of arranging the interior ready for work.

SCIENTISTS UNABLE TO LOCATE INFLUENZA GERM.

Boston.—One of the most desperate murderers in the history of the world is at large, and sicentists thus far have been unable to locate him. This terrible truth was brought out by Professor T. M. Rivers of Johns Hopkins Hospital, Baltimore, who addressed the society of American bacteriologists in annual convention at the Massachusetts Institute of Technology.

This criminal is the germ responsible for influenza, according to Professor Rivers.

According to statistics presented by Professor Rivers in 1908, a certain bacillus was identified and classified as an influenza bacillus, but it has been found that the germ flourishes in the bodies of perfectly healthy individuals, while others stricken with influenza, are not visited by the germ. The theory now is that an organism so small that it eludes the most powerful microscope, is the real culprit, and, furthermore, scientists declare that the human eyes is so constructed that it will probably never see through a microscope the actual guilty germ which has slain many thousands in influenza epidemics.

Informal Luncheon.

Mrs. C. D. Bellows entertained at noon today with an informal luncheon given in compliment to Miss Dorothy Pierce, a January bride. Covers were laid for Miss Pierce, Mrs. W. C. Pierce, Mrs. Fred Bellows, Mrs. Dale Bollows, Miss Hattie Pierce, Miss Laura Schmitz of Chillicothe, Mo., Miss Nellie Douglas, the honor guest and the hostess.

All-Day Session.

Ten members of the Ladies Aid society of the Wilcox Christion church were present at the all day session held yesterday at the home of Mrs. Earle Duncan. The day was spent making quilts and at noon dinner was served by the hostess assisted Mrs. Clint Adams. Those present were Mrs. Noah Duncan, Mrs. A. C. Ford, Mrs. Mart Adams, Mrs. Elihu Shell, Mrs. Joe Adams, Mrs. C. J. Duncan, Mrs. Lon Thompson, Mrs. Clint Adams and Miss Jennie Duncan. The next meeting will be held on January twenty ninth at the home of Mrs. Noah Duncan.

Bible Class Dinner.

The "Gleaners", a women's organized Bible class of the Presbyterian church taught by Miss Lucie Davis, enjoyed a dinner at 6:30 o'clock last night at the church. These dinners are given once every quarter and covers were laid last night for about fifty people. Guests of the class were Mr. and Mrs. L. H. Evans, Mr. and Mrs. Buntz, Mrs. Lewis DeHart of Detroit, Mich., and Miss Jessie Parcher. The dinner committee was composed of Mrs. S. A. McClurg, Mrs. C. E. Wells and Mrs. Fred DeMoss. Following the dinner, the prayer service was held, conducted by Dean G. H. Colbert. This Bible class has been doing some very fine work. The officers are president, Mrs. G. H. Colbert; secretary, Miss Elizabeth Sawyers; treasurer, Mrs. Sam McClurg.

For Miss Pierce.

A delightful bridge party was given in compliment to Miss Dorothy Pierce, a bride-elect, yesterday afternoon by Miss Mae Corwin at the Corwin residence on South Main street. Miss Laura Schmitz of Chillicothe assisted Miss Corwin in entertaining. Mrs. Ferdinand Townsend won the prize for high score and the honor guest, Miss Pierce, was presented with a bridal gift. The color scheme of green and white was used in the refreshments with the ices being in the shape of slippers adorned with cupids and the cakes contained the initials of the honor guest. Mrs. Lewis Dehart of Detroit, Mich., was the only out-of-town guest among the twenty-four invited ones.

For Bride-Elect.

Miss Marjorie Wilfley entertained this afternoon with an attractively appointed bridge party at the Wilfley residence on West Third street for Miss Dorothy Pierce, a bride-elect. Bridge was played from four tables and the out-of-town guests included Mrs. LewisDeHart of Detroit, Mich., Mrs. Court Toel of Little Rock, Ark., and Miss Laura Schmitz of Chillicothe, Mo. The tables were centered with white narcissus and the refreshments were carried out in the color scheme of yellow and white with hearts centering the ices.

Dinner Guests.

Mr. and Mrs. J. R. Croy had as their guests at 12 o'clock dinner today Mrs. L. E. M. Parker and baby daughter, Gertrude Eleanor, of Winston, Mo., and Mrs. Bart Neal.

Reorganize Divisions.

The Ladies' Aid Society of the First Christian church met Wednesday afternoon in the church parlors for the purpose of reorganizing the various divisions and the election of officers. The president of division A is Mrs. George Hartley; vice-president, Mrs. J. S. Shinabargar, and secretary and treasurer, Mrs. George Wallace. Division B president, Mrs. Dick Strong; vice-president, Mrs. Charles Eckert, and secretary and treasurer, Mrs. Ed Egley. Division C president, Mrs. W. A. Miller; vice-president, Mrs. F. P. Reuillard, and secretary and treasurer, Mrs. U. S. Wright. Mrs. W. C. Frank is president of the quilting division but her staff of officers has not been elected.

Stingley-Noble Marriage.

Miss Frankie Stingley and Jesse Noble, both of St. Joseph, were married January 5 at that place. The bride is the eldest daughter of Mr. and Mrs. Elra Stingley of St. Joseph, who were former residents of Ravenwood. Mr. and Mrs. Noble will make their home at Des Moines, Iowa, where the bridegroom is employed.

For Miss James.

The music committee composed of G. B. Roseberry, Frank Roelofson and U. S. Wright of the First Christian church were hosts at a social hour and informal reception last night after the choir rehearsal in compliment to Miss Margaret James, who is the newly appointed chorister. The members of the choir are Mrs. H. C. Todd, Mrs. L. G. Crossan, Mrs. F. P. Robinson, Mrs. L. G. Schnabel, Mrs. Alpha Bishop, Mrs. M. L. Grable, Mrs. J. D. Richey, Mrs. Fred Newlon, Misses Audrain Farrar, Doris Goforth, Mary Holt, Lorene Fenton, Sadie Neal, W. H. Charlton, W. E. Goforth, Hal Catterson, M. L. Grable and the organist, Miss Ola Smith.

Surprise Party.

The B class of the third grade at the Jefferson school gave the A class a surprise party Thursday afternoon. Refreshments were served by the hosts who were Valiere Clark, Laura Warner, Don Smith, Myron Swinford, Roy Holaday, Harold Manley, Mylo Liseton, Harlan Strong and Miss Ula Strader, the teacher. The guests were Winfred Helply, Mildred Bratcher, Lavena Swinford, Alberta Smith, Cleta Murray, Dorothy Lemon, Edward Strough, Verna Schimmings, Venis Schimmings, Rettie Dietz, Clarence Laughlin, Warren Howards and Donald Warner.

Eurekan Party.

The losing side of the Eurekan Literary Society of the State Teachers College entertained the winning side of a contest yesterday afternoon with a progressive rook party in the ladies' parlor. Bill Richards was captain of the winning team and Miss Elizabeth Leet of the losing side. Miss Jennie Dawson won the favor for high score. Miss Elizabeth Leet, Miss Alice Peery, Miss Abbie Murray, Miss Lucile Wright and Elmer Faris served refreshments. Thirty-two students were present at the party.

Miss Dietz Entertains.

Miss Margaret Dietz will entertain the members of the J. C. orchestra tonight at the Dietz home on East Third street. The members are Ethel and Katherine Wallace, Grace Dietz, Carlos Yehle, Glen Trullinger and the hostess.

Sorority Reunion.

Miss Anna Bainum entertained the members of the Delta Gamma Sorority living in Maryville last night at her home. The members busied themselves during the evening in sewing for Miss Dorothy Pierce, a Delta Gamma girl, and who is to be a January bride. Miss Pierce was presented with a spoon containing the emblem of the sorority. Those present were Mrs. Lawrence Ogden, Miss Dorothy Pierce, Miss Mae Corwin, Miss Marjorie Wilfley, Miss Laura Craig, Miss Laura Schmitz of Chillicothe, Mo., and the hostess.

Smile Party.

The third and fourth year intermediate classes of the Baptist church Sunday school entertained the Amoma, Agoga, Anti-Can't and the classes of students of the State Teachers College with a "smile" party last night in the parlors of the church. The admission to the social was a smile and a large sign at the entrance of the church procured the desired result. The guests were greeted at the door by the reception committee composed of Mr. and Mrs. Smiles, Mr. and Mrs. Grin and little Grin and Rube Hilarious. At a game of smiling quotations, the prize, which was a booklet, "The Good Old World," was awarded Jay Puckett. Miss Hilda Denny won the prize in the art gallery. The song "Smiles" was then sung followed by a reading by Mr. Smiles. A movie show, a peanut race, with Jay Puckett and Alice Allen winning the prizes, and various stunts added gaiety to the party. Miss Mabel Raines gave a reading, "A Pleasant Smile," and Miss Katherine Wallace and Miss Josephine Miller sang a duet, "Give a Smile." Refreshments were served to about sixty guests. Lee Meek was chairman of the entertainment committee.

Miss Lane Entertains.

Miss Lucile Lane will entertain about eighteen couples of the young folk of Maryville to night at her home.

Mrs. Corwin Hostess.

Miss Sue Young of Bedison has been the guest for several days of Mr. and Mrs. J. C. Whitehead.

Mob Law Attempt Collapsed.

London, Jan. 16.—"Attempts to establish mob law at Berlin have collapsed," said an Exchange Telegraph dispatch from that city today. Military measures were taken by Minister of Defense Noske to preserve order on the anniversary of the killing of Rosa Luxemburg and Earl Liebknecht, two Spartacist leaders, describe as "overwhelming." The Spartacists are said to have postponed plans for the overthrow of the government until the people are in a gorater state of unrest over the food scarcity.

The Other News Columns

Out of the tangle of daily happenings your paper relates the outstanding incidents, the things that tell of progress in the world of events. That is the news everybody reads.

But the knowing person reads the other news columns as well. Here are related the significant affairs of the more intimate world of buying and selling.

A new household invention, a better soap, a more economical food, a more durable fabric—these are the events that guide our personal expenditures. Such news is found in the advertising columns, together with reminders of the faithful service rendered by more familiar products.

Advertising is a guide to you; it is a declaration of faith on the part of the advertiser. His faith in his goods prompts him to invest money in addressing a public that constantly demands honest merchandise. It is through the advertising columns that you get in touch with such straightforward manufacturers.

Consistent advertising is pretty clear evidence of trustworthy quality. The futility of advertising poor quality was realized long ago.

A few minutes' daily reading of the advertisements brings the knowledge so necessary for careful buying.

RECONSTRUCTION PLAN OF FARMERS

EACH MAN HAS AN INDIVIDUAL PROBLEM TO SOLVE.

BACK TO SOUND FARMING

Return of Lands to Pasture and Hay Crops Means Larger Supply of Meat and Bread.

You have heard a great deal about the problems of reconstruction that are pressing for solution. But, like most men, you have probably thought of them as tremendously big problems that had to be solved, nationally and internationally, by statesmen and diplomats and high executives. They are that—but not just that. Every man—certainly every farmer, has a reconstruction problem all his own.

The war unbalanced the agriculture of the United States by unbalancing the agriculture of individual farms. There had to be produced the kind of food that could be transported over seas. Wheat is pre-eminently that kind of food, and other grain crops are to an extent such. Very many farms, therefore, got too heavy on the side of tilled and cereal crops and too light on the side of hay crops and pasture. Many farmers increased their tilled and cereal crops beyond what they had any basis of experience in carrying. Labor requirements were increased. Rotation practices were interfered with. To the extent that the wheat acreage was increased, the climatic hazard was increased, because, under the extensive farm practice that characterizes American agriculture, wheat is a crop that is very sensitive to climatic uncertainty. Such a practice long continued was likely to result, therefore, not in increased food production at all, but in actually reduced food production. In the long run, that would be the inevitable result. Even, if by some miracle, the hazard of weather could be escaped, the practice would reduce soil fertility until yields would be greatly cut down. But before that even, meat production would be harmfully reduced. For it is as true physically as spiritually that man does not live by bread alone. Very largely, he lives by meat. And meat animals—and milk animals—do not grow on grain alone. Most largely, they grow and produce on green grass and dry grass—pasture and hay.

Those are some of the reasons why the United States Department of Agriculture began urging, almost immediately after the signing of the armistice and continuously since, a return to pasture and hay lots, to clover and other fertilizer-fixing crops, some of the land that had been used for grain during the war emergency. The suggestion has been criticized from some quarters, because in some quarters it has been misunderstood.

Specifically, the department recommended that it was not advisable to undertake to maintain the wheat acreage sown for the crop of 1919. That did not imply that the department urged a smaller food production in the country. It did mean that the department was urging an increase in the food production of the country by steadying agriculture, by reducing the hazards that necessarily play into the hands of speculators, by returning agriculture to a peace basis that would insure adequate production of all kinds of food for this year and for other years. And that meant restoring pastures, restoring hay fields, insuring feed for the meat animals upon which the tables of the nation depend.

This return to sound agricultural practice is important to the farmer, certainly. But it is not more important to the farmer than it is to the city man. I has to do just as much with reducing the high cost of living as with reducing the high labor requirements and the fertility-draining practice of farming.

War needs caused the plowing up of many pastures that, under peace time conditions, are worth more in the economy of the farm in pasture or hay than in cereal or tilled crops. Some of them are back in grass now. There are others that should go back in grass. Specialists of the Department of Agriculture suggest that every farmer, during the winter when he has leisure to lay his plans carefully, work out his own problem of reconstruction, make his plans for planting the kind of crops next spring that will enable him, if not at once then as soon as possible, to put his farm back on its proper basis of diversification and rotation. His county agent and his state college of agriculture are ready to help him at any point where he may need help. The United States Department of Agriculture is ready to advise him on practically any phase of the matter. A great deal of thought has been given to the subject.

Eve and the "Lemon."

Topeka, Kan.—According to a speech delivered by B. E. Smith, well known horticulturist of Lawrence, before the State Horticultural Society here a few days ago, 'twas a lemon and not an apple that got Adam and Eve into trouble in the Garden of Eden.

Smith's argument was that the word translated "apple" in the Bible is with great probability supposed to mean the citron tree and the tree's fruit a species of lemon.

The Reed Dinner.

From St. Louis Star.

Editor of the St. Louis Star: The shrewd politician again gets his hand in; at least some of the wise ones think they see that the Reed dinner has a significance not observed on the surface. It is pointed out that Senator Wilfley gave a Reed dinner not long ago, and then there was a Reed mass meeting at the Odeon, and then again a Reed-McCormick meething at the Coliseum, not to speak of various other testimonials of more private nature, and all of them more or less non-partisan. Why another one just as the campaign i sopening for the nomination for president, senator and other offices.

A man with two eyes can read the meaning of it all. The National Democratic Convention is to meet in San Francisco June 28. The Missouri State convention will soon be called to elect delegates to San Francisco. St. Louis and the various counties in Missouri will be called on within the next sixty days probably to elect delegates to this state convention, and there it will be determined whether Senator Reed or President Wilson has the backing of the Missouri Democracy. This is the real issue, but around it is clustered a lot or minor issues.

Who will be the delegates to the San Francisco convention? Who will be the new national committeeman to succeed Edward F. Goltra? Will it be Goltra himself, or some other Democrat who is unequivocally with President Wilson? Or will it be one of the "Three Sams" whose names appear on the list of the Reed dinner committee? Or might it not be Maj. Harry B. Hawes, who is on the same list of the Reed dinner committee?

The split among the diners who are anxious to eat to the honor of the senator is contributing to the gayety of the occasion, but they are all one in their characterization of the senator's course as "courageous, independent and statesmanlike." Hawes, Simon and the "Three Sams" and all the Republicans and Democrats at the "non-partisan dinner" will be together on one issue—the first big thing to be done. It is dollars to doughnuts they will all be for sending Reed and as many of his followers as possible as delegates to the San Francisco convention.

This dinner is seen by the knowing ones as the first step to that end.

It will now be up to the people of the state to say whether they are with Reed or with the president.

Of course the old time politicial trick will be attempted, that is, to conciliate both sides and keep peace in the family. "Harmony" will be the watchword and under its magic spell the shrewd manipulators will do their work. This warning is now being given by some who think they forsee the result. It will be an interesting fight to watch. What we insist upon is that the issue be kept clear and the fight made on straight lines. Then we shall know whether Reed or Wilson controls the Democracy of Missouri. This is the real issue and the dinner is a pointer.

W. D. VANDIVER.

CONSTRUCTION WORK OF GUILFORD POWER LINE STARTED.

The construction work on the Guilford electric light and power line has been started and is going on as rapidly as conditions will permit. The transmisison line will run from Barnard to Guilford and the poles will be prepared at the yard in Guilford before they are hauled. One car of poles has been received. The company which is formed entirely of Guilford capital will not handle any electrical supplies except through the Guilford Hardware company.

The directors of the company are J. M. Broadbent, A. H. Wilson, J. L. Ballard, Arthur Thompson and Carl Wray.

Wolves Being Hunted.

Last Saturday the people from the various neighborhoods of Jackson township went on a wolf chase, the place for rounding up being in the Riley pasture near the Gallagher school. Some 250 persons took part in the hunt and everyone was ready to scalp the wolf just as soon at it had been killed, but not a glimpse did the hunters get of the animal. The hunters returned to their homes somewhat disappointed. Tuesday a like drive was made in the Hubert Null pasture but no wolf was cited on this hunt.

Next Saturday a third drive will be made, this one to be made in the McMulin pasture southeast of Ravenwood. The wolves have been killing sheep in the various neighborhoods and the farmers propose to kill and scare the remainder out of the country.—Ravenwood Gazette.
